### **RACE TECH INTRODUCES FORK GOLD VALVE EMULATORS AND FORK SPRING KITS FOR DIRT AND STREET VINTAGE MODELS**

*The most advanced fork valve kits and fork springs available for the vintage market*

Race Tech has been actively working with AHRMA to develop new Fork Gold Valve Emulator applications and Fork Spring rates for the expanding vintage market. Vintage applications are expanding rapidly for both the Road Race and Off-Road bike models. Currently Gold Valve Emulators can be fitted to most bike models and are AHRMA legal. A full line of Fork Springs is under development and will be available by midyear. Vintage Suspension can be made to perform very well with Race Tech upgrades.

Race Tech is a proud sponsor of the 2008 AHRMA Road Race Series and will have trackside support at the Cornerstone events. Interested enthusiast and riders are invited to contact Race Tech if their bike model is not currently available. Vintage Street Riders are excellent candidates for improved suspension as well!

Race Tech products and services are available by calling Customer Service at 951-279-6655 or please email: [info@racetech.com](mailto:info@racetech.com).
